

Please read the following in advance of your appointment.

Agape Allergy & Immunology COVID-19 Office Regulations

Agape Allergy & Immunology is dedicated to keeping our patients and staff protected from exposure to COVID-19.

MASK REQUIREMENT:

- We require ALL patients over 2 years of age to wear well-fitting cloth or surgical mask when they come in. If you or your child are unable to wear a well-fitted cloth or surgical mask, please notify our scheduling team upon booking your appointment as we may need to make special accommodations for you.

SOCIAL DISTANCING:

- We are asking ALL patients to not bring additional family members to appointments. Minors should be accompanied by only one adult. Siblings and other family members will not be permitted into the office unless they are also scheduled to be seen.
- Our shot patient appointments are limited to avoid crowding in the waiting room. Shots are by appointment only. Please arrive at your scheduled appointment time. Early or late arrivals may be asked to reschedule.

SYMPTOM SCREENING:

- We are asking that patients who are symptomatic consistent with COVID-19 schedule telemedicine visits.
- There is a health screen that all patients must complete upon booking and checking in for appointments.

We are engaging in sanitization procedures daily.

Thank you all for your compliance with these rules as we navigate this difficult situation. As information continues to evolve, we will keep our website updated.
